

Sample installation reference

July 2013

**University of
Sunderland**

'Just wanted to drop you a quick line to pass on my gratitude and thanks for the work on site this week in the two Lecture Theatres at St. Peter's Campus. Matt and Colin have done an excellent job on site and the installs look fantastic, the attention to detail and cabinet work is some of the best I have seen at the University.

As always Craig's project management has been superb and am really impressed with the Interfaces Paul has developed for the touch screen panels, he's obviously spent a lot of time off site working on these for the University. We've spent a considerable amount of time discussing layouts on future projects and Paul has took on board everything that we have spoken about and developed a really user friendly interface – he's gone way above and beyond what I would normally anticipate.

All four are a real credit to Roche and I couldn't be happier with the end product, definitely a job well done!

As always please pass on my thanks.'
